

- The will and purpose of the current system is the accumulation of money, not regarding efficiency and the welfare of society. Wasting resources, destroying the planet, creating unemployment and unhappy consumers.
- Citizens are the gears of a machine designed to enrich a minority which does not regard our needs. We are anonymous, but without us none of this would exist, because we move the world. If as a society we learn to not trust our future to an abstract economy, which never returns benefits for the most, we can eliminate the abuse that we are all suffering.
- We need an ethical revolution. Instead of placing money above human beings, we shall put it back to our service. We are people, not products. I am not a product of what I buy, why I buy and who I buy from.

For all of the above, I am outraged.

I think I can change it.

I think I can help.

I know that together we can.

I think I can help.

I know that together we can.

Come with us on the streets! It is your right!

For real democracy now!

Here in Nuremberg: Every Sunday from 3pm

in front of Lorenzkirche

and in many other european cities!

And every Wednesday from 8.30pm Planungskneipe / Gostenhof.
